EDUCATION

B.Tech Computer Science and Engineering *w. spl in Cybersecurity*
SRM Institute of Science and Technology, Kattankulathur

CGPA - 9.59/10.00
June 2022 - May 2026

SKILLS

C, C++, Python, JavaScript, Kali Linux, Nikto, Ubuntu, Django, Wireshark, Nmap, Metasploit, Nessus, Burp Suite, Maltego, Splunk, Cybersecurity, Penetration Testing, Vulnerability Management, Computer Networking

PROJECTS

Remote Access Trojan | [Project Link](#)

Developed a Remote Access Trojan (RAT) written in Python with 10 features including **stealth webcam activation**, **key logging**, and **command execution** allowing a user to remotely control a victim's machine over a network.

Offensive Tools | [Project Link \(Hash Cracker\)](#) | [Project Link \(Password Guesser\)](#)

Created an offensive cybersecurity toolkit using Python including a **hash cracker** for brute-forcing hashed passwords across 5 algorithms with multi-threading support for enhanced performance and a **password guesser** for targeted brute-force attacks on services including **SSH, FTP, and HTTP forms**.

Web Reconnaissance Tools | [Project Link](#)

Engineered a suite of tools for comprehensive web reconnaissance, uncovering 3 categories of security vulnerabilities in websites, including **SQL injections**, **XSS (Cross-site Scripting)** & **SSRF (Server Side Request Forgery)**.

To-Do Discord Bot | [Project Link](#)

Spearheaded a Discord bot to replicate To-Do app functionalities, which enabled users to track daily tasks and goals, fostering healthy competition and boosting productivity.

ACCREDITATIONS

- Pentester Lab - Recon Badge | [Accreditation Link](#)
- Penetration Testing, Incident Response and Forensics - IBM | [Accreditation Link](#)
- Junior Penetration Tester - TryHackMe | [Accreditation Link](#)
- NSE 1 Network Security Associate - Fortinet | [Accreditation Link](#)
- Operating Systems: Overview, Administration, and Security - IBM | [Accreditation Link](#)

EXPERIENCE

Cybersecurity Intern

Indian Institute of Technology, Jammu

November 2024 - Present

- Conducted in-depth APK malware analysis to identify, reverse-engineer, and mitigate security threats in Android applications.

Member

Next Tech Lab

November 2023 - Present

- Engineered meaningful security solutions to 5 minor vulnerabilities/problems with a team of cybersecurity enthusiasts.

Admin (President)

HackTheBox SRMIST

April 2023 - Present

- **Launched 7 large cybersecurity events** like ethical hacking competitions with audiences of over 400 students.
- Coordinated a team of 85 students in organizing the events, workshops, and training sessions.
- Competed in Capture the Flag competitions ([PrivateUser](#) - **Nationally 14th place on CTFtime**).
- Collaborated with Null Chennai and OWASP Chennai meetup for a live ethical hacking event at IIT Madras for 110 students.

Cybersecurity Intern

TechnoHacks EduTech Official

July 2023 - November 2023

- Executed network scanning, performed packet analysis with Wireshark, and gathered intelligence using Maltego for 4 networks.

ACHIEVEMENTS

- Attained **top 1% ranking** on TryHackme among 3M+ users globally by conquering about 180 challenges.
- **Secured 1st place** out of 150 teams in HackathonX CTF conducted by National Cyber Security Research Council at IIT Madras.
- **Secured 9th place** in Yukthi CTF, a state-level CTF organized by Tamil Nadu Police.
- **Ranked 17th** in CursedCTF, a global CTF competition with 11058 participants worldwide.
- **Placed in the top 30 teams** of IITB TrustLab's CTF out of 800+ participants.
- Tackled challenges in **50+ Capture the Flag competitions**, showcasing expertise in technical problems across domains such as cryptography, web exploitation, forensics, steganography, and OSINT.
